Resigned from above in protest at the way the " The Marj. " was secretly planned. The Clinical Senate and Chairperson of CNAHS learning about it via a media release (The Chairperson of CNAHS resigned over the same issue). I also disagreed with the new health plan which was, and is, a betrayal of the principals of The Generational Health Review.

I decided to stand for Florey to try and preserve, and improve the standard of health delivery to the North Eastern suburbs and to oppose the disastrous decision to build a hospital in a land locked, height restricted, toxic dump!
